

Ser. No. 10/687,065

REMARKS

Claims 1 to 14, as amended or originally presented, remain in this application and are presented for reconsideration.

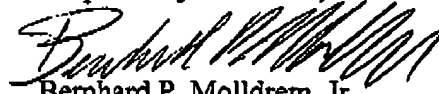

The specification has been amended as suggested by the Examiner. No new matter is involved.

Claims 8 has been amended to correct errors in the phraseology and to match antecedents in its parent claim(s). A minor correction is also made in Claim 2. No new matter is involved.

The references to Vandeweghe, Sieradzki, Bellinghausen et al., and Bergman were cited to show the state of the art, but were not applied to the Claims. Applicant agrees that these references do not show or suggest the subject matter defined in the claims being asserted.

In view of the foregoing amendments and remarks, it is respectfully urged that all of Claims 1 to 14 are in condition for allowance, and early and favorable consideration is solicited.

Respectfully submitted,

Bernhard P. Mollrem, Jr.
